

Overview

You have a chance to know about Nepalese roads when you start to ride Royal Enfield motorcycles that have become one of the staple rides for touring in Nepal. Royal Enfield as a bike has proven to provide its rider with safer ground stability and a smooth-riding experience because of its weight and a powerful engine. Depending on your preference we have both 350CC, 500CC Enfield, and Himalayan 411 cc, available that can be at your advantage for traveling the smooth and the bumpy roads around Nepal.

Adventure Rides are meant for adventurers with some history of traveling. These are trips that range from 1-10 days long and are meant to include a full package for adventure. Along with enjoying the unpredictable terrains, there will also be short treks, camping, and sightseeing depending on the final destination of the tour.
